### AirPlay (Apple TV)

#### What you need

- An iPhone, iPad, or Mac
- An Apple TV (or AirPlay 2 compatible TV) connected to the same WiFi network

#### How to do it

1. Start your session or program on the website
2. Press the video play button
3. In the video player controls, tap the AirPlay icon (a rectangle with a triangle)
4. Select your Apple TV or compatible TV
5. The video will appear on your TV

### Stop streaming

Tap the AirPlay icon again and select your device (iPhone, iPad, or Mac)

### Chromecast

#### What you need

- A computer with **Google Chrome** or an **Android** device

- A Chromecast (or TV with built-in Chromecast) connected to the same WiFi network

### **How to do it on Chrome (computer)**

1. Start your session or program on the website
2. Click the three dots ■ in the top right corner of Chrome
3. Select **Cast...**
4. Choose your Chromecast from the list
5. Under **Sources**, select **Cast tab**
6. The video will appear on your TV

### **Stop streaming**

Click the three dots ■ again → **Cast...** → **Stop casting**

## **Known Limitations**

### **iPhone / iPad and Chromecast**

It is not possible to cast to a Chromecast from an iPhone or iPad. This restriction is imposed by Apple on all iOS browsers. On these devices, only AirPlay is available.

### **Compatible browsers**

Chromecast only works on Google Chrome (computer and Android)

AirPlay only works on Apple devices (Safari and Chrome on iOS/macOS)

Firefox, Edge, and other browsers do not support either streaming option

### **WiFi Network**

Your device (phone or computer) and your streaming device (Apple TV or Chromecast) must be connected to the same WiFi network for streaming to work.
